Compliance Assessment Date	July 29, 2022
Report Summary and Commentary	<ol style="list-style-type: none"> 1. Ten (10) test subject vendors were identified as original test targets in the test plan however eleven (11) test subject vendors appeared in the final report. Sophos (Intercept X for Mobile) appeared in the final report. 2. Questions regarding the dispute phase were raised by McAfee and AMTSO initiated discussions between both McAfee and TGL personnel. According to the e-mail exchange from both companies, the dispute phase was closed and accepted on July 13th, 2022. 3. Phase 1 Commentary Collection (Avast, Avira, Kaspersky) did not raise any operational concerns regarding the test. 4. Two (2) vendors (Avast, Kaspersky) completed the Phase 2 Commentary for this collection period. No issues were raised. Recall that McAfee engaged in dispute phase clarifications through AMTSO. Phase 2 Commentary officially was open from July 7th, 2022 through July 14th, 2022. 5. Due to Sophos appearing in the final report but not having been invited to provide Phase 1 or Phase 2 commentary, AMTSO needed to intervene and check on their views regarding the test. (Criteria 3.*) AMTSO asserts that Sophos's performance in this test (100%) indicates that the missing dispute phase did not impact any product scores however respects that Sophos could have opted-out of the test entirely had they been given the opportunity. Sophos has waived their objection to this violation as TGL is going through their first AMTSO Standard Test Cycle; thereby allowing the compliance confirmation to move forward. 6. The link from the TGL test report and/or web site back to the AMTSO web site for this test was missing as of July 18th, 2022. (Criteria 5.8) A revised release of the test report included the needed disclosures by July 20th, 2022. 7. Contact information is still required for Antiy Labs for feedback. (Criteria 1.1)
