Compliance Assessment Date	August 11 th , 2023, Released on September 13 th , 2023
Report Summary and Commentary	<ol style="list-style-type: none"> 1. Four (4) Phase 1 Commentaries from two (4) unique test subject vendors (Avast, Kaspersky) were filed. No concerns were raised based on the scope and methodology of this test. 2. Six (6) Phase 2 Commentaries were filed from four (4) unique test subject vendors (Avast, Avira, Broadcom, Kaspersky). 3. During the Phase 2 Commentary Period, Avira raised a concern wherein it was felt that an error or bug in the certification process had been uncovered dating back to the Q1'2023 testing cycle. Further research was done by SE Labs in response with the latest updated data supporting the SE Labs position circulated between the two companies on Tuesday, September 12th. 4. SE Labs reported the following on Item [3]: "The results still stand from our side and the initial results presented in the report are accurate and can be backed up with the data we have and produced at the time of test. We have since learned of further logs we can produce that were not initially collected by our tester but this did not impact the result of the exposures." 5. From an AMTSO Standards V1.3 perspective, we believe as of this Compliance Report publication that the dispute process has been followed by both the tester and vendor while still sorted the samples in question. 6. Despite a 30-day delay in this final publication, this test is Confirmed Compliant with AMTSO Standard V1.3.
