Report Summary and Commentary	1. Phase 1 Commentary was received from one (1) test subject vendor (Avast/Gen). There were no issues raised prior to the testing period. 2. Phase 2 Commentary collection closed on Monday, February 9th, 2026, with eight (8) commentary invitations issued (Avast, BitDefender, ESET, GDATA, McAfee, Norton, MalwareBytes, and Sophos). 3. Avast responded to the call for Phase 2 Commentary on behalf of GenDigital with comments representing Norton: “There was an issue with product logs, which were missing, so we could not verify all the test cases' detections. The tested Norton product uses same scanning engine as Avast, which had 0 misses and thus we are suspecting some inconsistency in testing environment. We are in touch with MRG Effitas to mitigate this issue before next testing cycle.” 4. MRG-Effitas was invited to respond however no response has been received by issuance of this report. 5. Given that GenDigital confirmed that they are working with MRG-Effitas on the issue, this test is **Confirmed Compliant** with AMTSO Standard V1.3.
