Report Summary and Commentary	<ol style="list-style-type: none"> 1. This Compliance Report is the first completed review of the Venak Security Zero-Day EDR Test, completed during the first quarter of 2026. 2. One (1) Phase 1/Phase 2 Commentary sequence was received from GenDigital/Avast. One issue was raised regarding the availability of product logs from the testing sequence. This was resolved during the Phase 2 Commentary period to the satisfaction of both parties. 3. Three (3) potential participants requested an opt-out via the rules established in the Test Plan. This included Sophos, McAfee, and Watchdog. 4. One (1) potential participant, Sentinel One, was eliminated from the final testing cycle as the product was not available for the tester to use. 5. Commentary forms were extended to Crowdstrike, ESET, GDATA, MalwareBytes, and QuickHeal without any response having been received. 6. Initial review of the checklist criteria found a potentially misleading link from the tester's results age back to the AMTSO home test site. This issue was discussed and resolved over e-mail. Additionally, AMTSO pointed out that usage of the AMTSO Confirmed Compliant badge would now be appropriate for this test. 7. This test is confirmed compliant with AMTSO Standard V1.3.
